

# Let people know why you've chosen GWAAC

If you're hosting a fundraising event, we want to make it easy for you to spread the word to your friends, family and others about the work we do and why you chose to support GWAAC. We've created this handy cut-out sheet of facts for you to place on tables around your event.

cut along dotted lines and fold in the middle

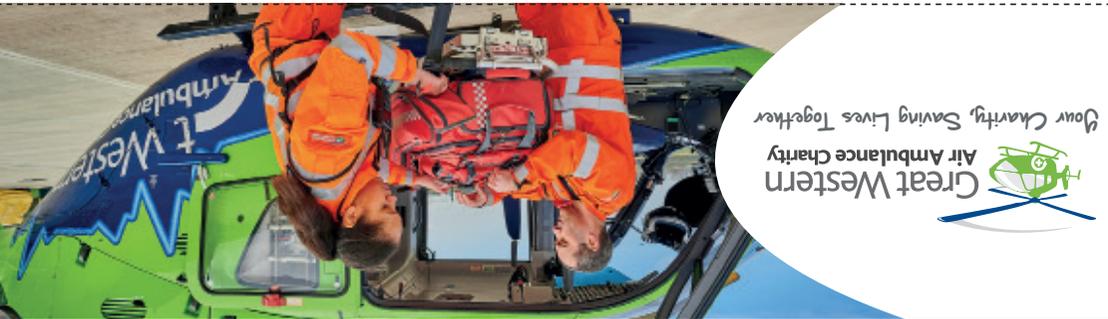

## We're a charity!

Many people don't know that we are not funded by the NHS or the Government – despite being an emergency service, our charity is funded completely by people like you!

## We bring the hospital to the patient

We're not just a fast way of getting people to hospital, or a flying ambulance. Our service is all about the specialised skills our crew bring; we carry advanced drugs and can carry out advanced medical procedures on scene - essentially bringing the hospital to the patient.

## We take the patient to the hospital that's best for their needs

Being able to provide medical care on scene means we can stabilise a patient, giving us more time to transfer them to the hospital best suited for their illness or injury, which isn't necessarily the closest.

## We attend patients in any location, not just in remote places

We are only called to those who have life-threatening illness or injury, where our crew's advanced skills can make a difference to the patient on scene. The types of incidents we attend include cardiac arrests, road traffic collisions and other serious trauma or medical illness.
